MARY BROWN WAGES A CONTINUAL BATTLE TO CHANGE THE LAWS IN URUGUAY.

There is no protection for animals against cruelty in Uruguay and Mary is waging a battle with Parliament to try to change the laws so that people guilty of cruelty to animals can be prosecuted. There are many cases of ritualistic killing of animals.

Mary takes care of about 125 dogs, 2 horses and a turtle. Some dogs are handicapped, missing a leg, or paralysed. All arrived in a terrible condition. She fights every day to change the situation in Uruguay.

ANDREA AND HER TEAM TRY TO EDUCATE THE PEOPLE OF KATMANDHU IN ANIMAL WELFARE.

The problems encountered by Andrea and her team can vary from skin and infection problems, deworming, taking care of injuries after accidents, to vaccinations. The general health of many animals has now improved. The treatments take place on the streets, which gives the team the opportunity to talk to the public about animal welfare and to treat pet animals too. Also the team responds to emergency calls during the week.

AYDA FIGHTS AGAINST IGNORANCE AND PREJUDICE

In Egypt people who care about animals are considered fools with too much money, but Ayda is doing her best to keep animals she rescues in a safe, clean and healthy place, full of love before any thing. The needs of the animals has become the first issue in her life . She tries to get them adopted into a good home if she can, so she has room for a new case so it too can have a chance for care. As Ayda says, "how can any one sleep after seeing a kitty hiding in a car from rain or dying for a drop of water?"

ANIMAL HELP

Uruguay

"I founded ANIMAL HELP in URUGUAY In January 1999. We rescue injured, ill and mistreated animals. At the moment, we have 125 dogs and we go on rescuing those in real need. We try to find loving homes for them. We mostly rescue mistreated horses by the approval of the Judge..... We believe everyone has the right to live."

"Thank you! We could use the money to set up our clinic at the dog center. We are planning this these days. We need medicine for that and some instruments, but either way we could also do some sterilizations. We get a discount at our clinic for these and the cost for one dog is Euro: 25,00 (2.500 Nepali rupee) We can easily take photos during the operation and after at the dog center for you."

"The problem I am facing here is the thousands of pets in our streets. You can find many cats dead under cars or wounded dogs, thin hungry cats. I notice them full of fleas and worms, street cats and dogs are getting more and more, no neuter or spay to stop this big problem. The tragedies you can see when people poison those beautiful animals with no reason!. I work alone no helpers."
